Applicant's Signature

For your remarks (optional, max. 1000 characters):

INSTRUCTIONS & INFORMATION

- **School / Vocational Training:** Examination achievements from secondary school or vocational training cannot be recognized.
- **Focus on New Competencies:** According to examination regulations, the acquisition of new knowledge, skills, and methods beyond previously acquired ones should take priority. Therefore, selecting elective modules you have not yet completed should be in your best interest rather than seeking recognition.
- **Full Modules Only:** Credit recognition is only possible for complete modules; partial recognition of individual course components is not permitted.
- **Ungraded Credit Transfer:** Course achievements completed at other institutions are always recognized *without a grade* due to non-comparable grading scales and pass regulations. Recognized credits cannot be used to compensate for "unsatisfactory" performance in economics/business degree programs at FernUniversität. Consequently, the final overall degree grade is calculated exclusively from examinations completed at FernUniversität.
- **Single Use Rule:** Each recognized course achievement can only be applied toward one degree program.
